SwissClassic – Quality knives for the household

Cutting- and kitchen tools of optimal design and quality can make your work easier. But because a single type of knife cannot entirely fulfill each and every requirement, we offer suitable tools for every application.

The household knives of the Victorinox SwissClassic range, thanks to their ergonomic and non-slippery handles, rest comfortably in the hand and are dishwasher-safe.

The appropriate hardness of the blade and the laser-tested cutting angle guarantee a high edge retention. We think you will appreciate the superior quality of these Swiss products and their utility in the kitchen and household.

Victorinox **guarantees** all knives and tools to be of first class stainless steel and also guarantees a life time against any defects in material and workmanship (2 years for electronic components). Damage caused by normal wear and tear, misuse or abuse are not covered by this guarantee.
